

Class Warfare!

By Phillip W. Weiss

In New York City a court convicted Donald J. Trump, of thirty-four felonies. This is a serious matter that cannot be trivialized. Mr. Trump is now officially a felon and will take that label with him when he is inaugurated as the 47th POTUS. But despite the massive expenditure of time and resources to prosecute Trump, from his arrest to arraignment to indictment to trial and conviction, the judge presiding over the trial sentenced Trump, now convicted of THIRTY-FOUR felonies, to unconditional discharge, meaning NO PUNISHMENT and wished the defendant "Godspeed."

This judge's sentence revealed the true nature of these legal proceedings, which were a sham. Obviously, the judge, a hardcore partisan Democrat, knew from the start of the trial that the DA's efforts to gain a conviction against Trump was a waste of time, nothing but pure political theatre which the judge let play out not in the interest of obtaining justice and making the city a better place in which to live, but to score cheap political points by using the court to bring discredit to the defendant who happens to be the POTUS-elect, a Republican (which to many Democrats also means a Nazi), and a defender of the middle-class.

Meanwhile, while the city of New York was conducting this show trial against the POTUS-elect, the elected city officials deliberately continued to neglect their responsibility to protect the public against violent street criminals, KNOWN TO THE AUTHORITIES, who are ALLOWED to act-out WITHOUT RESTRAINT in the streets, subway and other public venues of New York City. This is the result of anti-law-and-order policies designed exclusively to promote a partisan political agenda at the expense of public safety, the goal of which is to destroy the middle class. The Trump sham trial is part of this campaign against the middle class.

Public officials have demonstrated the same wanton and arrogant disregard and contempt for public safety in Los Angeles, California, where the mayor and governor, both hardcore partisan Democrats, the latter of whom wants to "Trump-proof" the state of California, supported policies that have reduced the availability of critical resources needed to protect middle-class neighborhoods from the ravages of fire which are now burning out of control DUE TO LACK OF WATER!

What is happening in New York City, Los Angeles, and elsewhere throughout the country is class warfare, the objective being to erode and destroy the middle class, and by achieving that, destroy the United States.
