

Dangerous Precedent

by Phillip W. Weiss

Now that the Democrat party has established a legal precedent for weaponizing the judicial system to promote a political agenda, the Trump administration could follow said precedent to advance its own political agenda. Below are listed several issues of a political nature that warrant immediate investigation.

1. The relationship between the Democrat party and anti-Israel demonstrations.
2. Democrat party support for defunding of the police.
3. Democrat party use of Congress to scapegoat Trump for January 6, 2021.
4. Democrat party involvement with election fraud.
5. Democrat party use of the COVID-19 epidemic to violate the civil liberties of millions of Americans.
6. Democrat party decision to open the southern border in 2021 and allow the Mariel boatlift in 1980.
7. Democrat party decision to create the Confederate States of America and impose Jim Crowism in the South after the Civil War.

OR

The Democrat party can sincerely admit its responsibility for the above acts, offer its sincere apologies, confirm its allegiance to the United States and willingness to work cooperatively with non-Democrats to solve problems, and then join with the Republicans to repudiate lawfare and WIPE THE SLATE CLEAN.
